Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. Benton's Liniment for sale at all drug stores.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays the pain, cures wind colic and is the best remedy for diarrhoea. Twenty five cents a bottle.

ALL SORTS.

There will be lots of fun tonight at the skating rink.

Fair weather is predicted by the meteorological works.

It is thought the Senate will kill the Free Coinage Bill.

The weather is still a long ways from being satisfactory.

Kelly and Webster now appear as proprietors of the Reno Journal.

In the East kerosene oil costs 7 cents a gallon. On this coast 50 cents.

Spurgeon the great London preacher is dead. He was the Brecher of the old world.

The Comstock papers say that the authorities allow all the criminals in Storey to escape.

Don't forget to buy a ticket for the Custer Corps entertainment that comes off next Friday.

The buffalo and deer to be used as accessories in "Nick of the Woods" are now being fed at Sweeney's ranch.

The rain makers claim that the recent showers in Tulare County, Cal. were produced by artificial means.

The ocean steamer Eider has been wrecked on the Atherfield Ledge in the British Channel. The passengers were saved.

A temperance service will begin in the Methodist Church on Thursday evening. Two well known temperance advocates from Nebraska will manage the revival.

Seats for Nick of the Woods are already in good demand. The eminent tragedian and melodramatist, John Mack, will enact the immortal role of Gibbernaisey with both hands.

A San Francisco dispatch dated Feb. 2nd (today) was published in last night's Chronicle, telling of Judge Hawley trying cases in his court in San Francisco. Judge Hawley was in this city yesterday.

The penalty for fast driving in Golden Gate Park appears to be death at the hands of the park police. The recent killing of DeGreyer by policeman Harper seems to have been wholly unwarranted and done to show off the peeler's skill with a six-shooter.

The Reno Journal says that John Sparks, who has been on a tour of inspection, on his cattle ranges in Eastern Nevada and Idaho, reports stock doing well and less snow on the East side of the divide between the waters of the Humboldt and the Snake rivers than on the west side.

William Robson, who was shot by Martin Brazzanovich at Soda Springs the 27th of last month, died in Hawthorne yesterday morning. At the post mortem examination the bullet was found behind and touching the heart. The coroner's jury gave a verdict charging Brazzanovich with murder.

The well known candy manufactory has again changed hands, and N. E. Scofield, of Glenbrook, has purchased the business of J. T. Banning, opposite the depot. He will keep on hand a stock of fine cigars and tobacco, nuts fruit and vegetables in season, canned goods, etc., and make a specialty of pure home-made candies. Give him a call. f3w

Death of T. H. Stone

Yesterday morning Thomas Stone, for many years engineer at the Box Factory, died of pneumonia.

He was sick not more than a week. His wife and children are at present in Stockton and he kept the news of his sickness from them as he did not wish to give them worry and the first which the wife and three children had of the death was a dispatch yesterday.

Mr. Stone was aged 52 years, a native of Rhode Island and highly esteemed in this community.

He was a member of Carson Lodge No. 1, F. & A. M., and Ormsby Lodge No. 4, A. O. U. W. The widow and daughters will arrive today and the funeral will take place on Thursday afternoon under the auspices of the Masonic Fraternity.

Sage Brush Paper.

The following is telegraphed from Boise City:

Robert Laing, resident of Boise, has made a discovery which may be of great value to the sagebrush districts of Idaho, Utah, Nevada and other States. Some time ago he became imbued with the idea that the sagebrush might be converted into a coarser grade of paper.

He secured a wagon load of the supposedly useless shrubs and began to experiment. By using the lime process and treating the brush to a protracted boiling he secured a pulp that more than satisfied his expectations. It was equal to the very best wood pulp, and the presence of a long and strong fiber was plainly demonstrated.

Laing states that he can manufacture sagebrush paper at a small cost, and that he can make a profit by selling it at 4 1/2 cents a pound. He will start East on Monday, his idea being to interest capitalists to aid him in developing his discovery.

If Mr. Laing can sell sagebrush paper at a profit of 4 1/2 cents he can break the big paper combines that now control the market and also open up a new industry for Nevada. If he will come up here he can have all the material he wants for the simple cost of cutting it and hauling it away. The tender leaves of the sagebrush, when boiled down, make the best cough and fever medicine in the world.

No need of sending men to Africa and South America to look for medicinal plants; the sagebrush in nearly all kinds of sickness stands at the top of the list. The Indians have used it for years, and white people who have tried it will use nothing else.

Rumored Change of Divisions

Silver State: The latest rumor in railroad circles is that there is to be another change of divisions on the Central Pacific, to take place on the 1st of April. The Sacramento Division will be extended east to Reno, the Truckee and Salt Lake Divisions remaining as they are at present but the report says that they will both be under charge of one Superintendent which will probably be Superintendent Frazier of the Truckee Division.

This will be a good thing for Reno as it will be the terminus of two divisions, whereas it is not now even a lay-over point for crews. It will be a hard blow to Wadsworth, however, and will also hurt this town as all the passenger conductors who reside here will probably remove their families to Reno.

Cattle Dying in Idaho.

Thousands of cattle are said to be slowly starving to death in the hills of Southern Idaho. The loss to stock raisers will be tremendous. Every blade of grass upon the ranges is under from 22 to 60 inches of snow. The present winter has not been equaled in severity since 1870. The rigorous season was not anticipated by ranchers and they delayed bringing their cattle to low lands. The delay has proven fatal, and a well known stockman says that every domestic animal left in the hills is sure to meet death either from cold or hunger. Nearly every rancher will lose more or less heavily, though many of them had the good fortune to drive a portion of their cattle into the valleys before the great storm came.

PERSONAL.

Judge Hawley arrived on yesterday morning's train.

Moses Hopkins died in San Francisco yesterday. He left \$3,000,000.

Mrs. Hall, of Eureka, who has been visiting her daughter, Mrs. Geo. W. Baker, in San Francisco, died suddenly yesterday morning.

A Losing Game.

There is a man in this city who attempted some years ago to swindle a couple of confiding women out of about \$2,500 in a real estate transaction. He was obliged to make restitution in order to avoid a criminal prosecution and give his note for the balance. There is still \$600 due on the note and he has offered to compromise by a payment of \$250 which has been refused. In cases of that kind it's always better to settle by paying the amount honestly due, but it is still better for men professing all the Christian virtues to keep out of such shady transactions entirely.

Defending Nevada.

The San Francisco Chronicle of last Sunday contains a sturdy defense of Nevada from the pen of Joe Goodman an old Sagebrusher. He shows how San Francisco was on the down grade and going to the dogs when the Comstock was discovered and new blood flowed into the veins of California.

All the big buildings in San Francisco are paid for by Nevada money. The Palace, Baldwin, Occidental and Cosmopolitan Hotels were all built with money made in Nevada as well as the big Mills and Crocker buildings now in process of construction. But California never acknowledges the debt and only sneers at Nevada when her name is mentioned.

Nick of the Woods.

The seventeen colored pictures for the great border drama are now occupying the bill boards and thinning out the translucent shades of light from the war paint of life size figures representing John Mack and a corps of bloodthirsty savages.

The characters in the play have devoted themselves to their lines and there is no doubt of an enormous house to witness the play. The Chiefs of the Pinto and Washoe tribes will bring along a delegation of braves to see that no mistakes are made in the "Stake Dance."
